# VISION

To efficiently produce and sell bags of outstanding quality, & to give excellent service & value to make every customer smile

# MISSION

We focus on customer satisfaction, convenience and innovation

# Why we stand out

## Our Values

1

### Efficiency

Taurus focuses on increasing the quality of our products and the effectiveness of the manufacturing process.

2

### Integrity

We aim to act with honesty and consistency in whatever we do based on the moral value and beliefs we hold to.

3

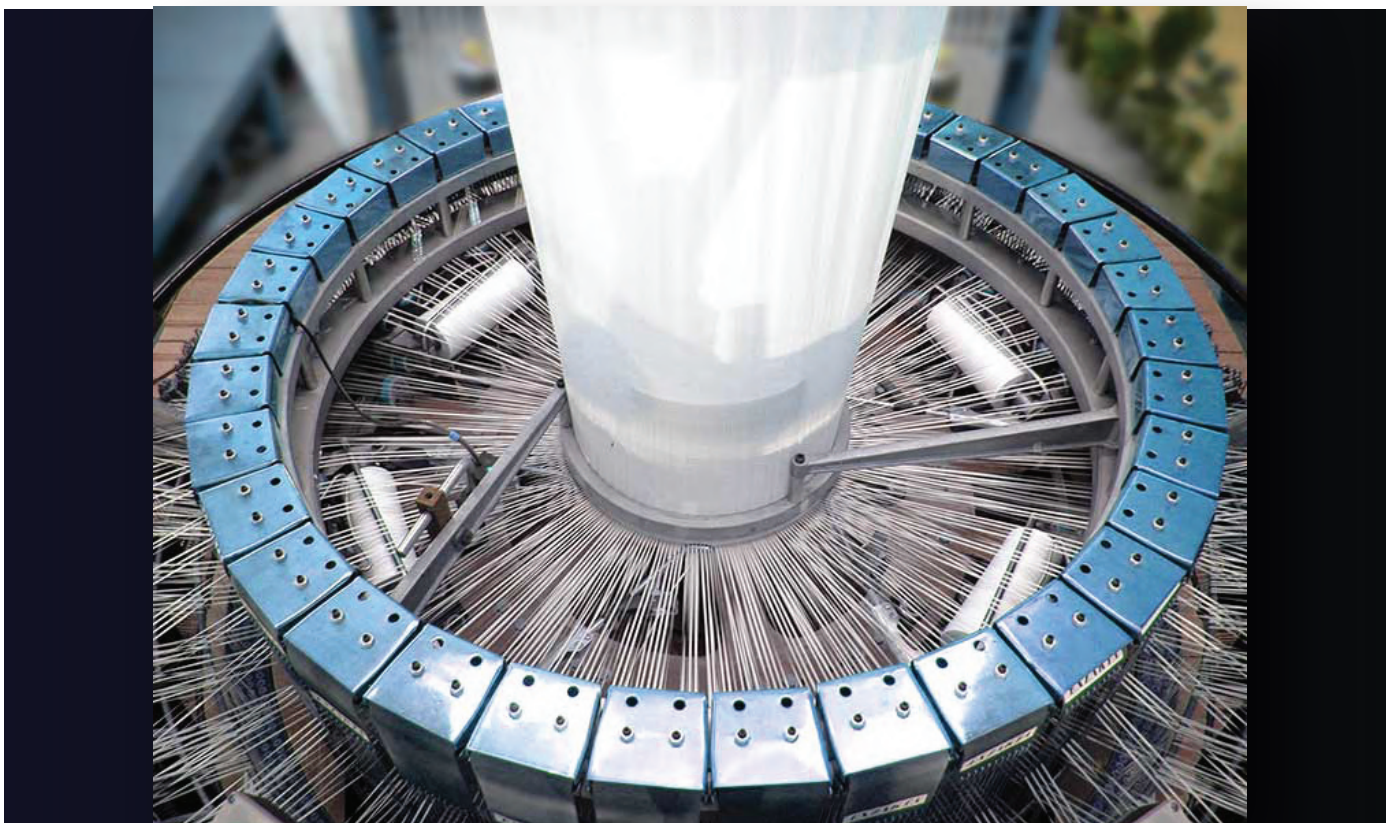

### Reliability

Reliability means that every Taurus team member will deliver consistently, as every employee impacts on our quality standards.

4

### Passion

Passion is what drives us to succeed because we are completely dedicated to making your business work no matter how hard the process may be

# What we do

## Our Story

Welcome to Taurus Packaging Ltd, your number one source for all things polypropylene packaging. We are dedicated to giving you the very best of packaging solutions, with a focus on efficiency, reliability, integrity and passion.

Registered in 2017, Taurus has evolved and changed with the times, spurred on with the support from customers like you. Our passion for bettering the lives of farmers has driven our research and development department to research on better packaging solutions that will give value for money.

We now serve customers all over the country with these products, and are thrilled to be a part of the growing and dynamic wing of the packaging industry.

Our small size gives us the advantage by enabling us to grow with our customers and to take the time needed to specialize in product and packaging innovation. We are readily available to listen and respond swiftly and aptly to our customer's needs and demands in a timely manner.

As we look ahead, we aim to grow to become a major player in the industry, with innovation and ecological care.

**“Our goal is to establish a presence in every market need and be a regional leader in quality products and service”**

# Our Product Range

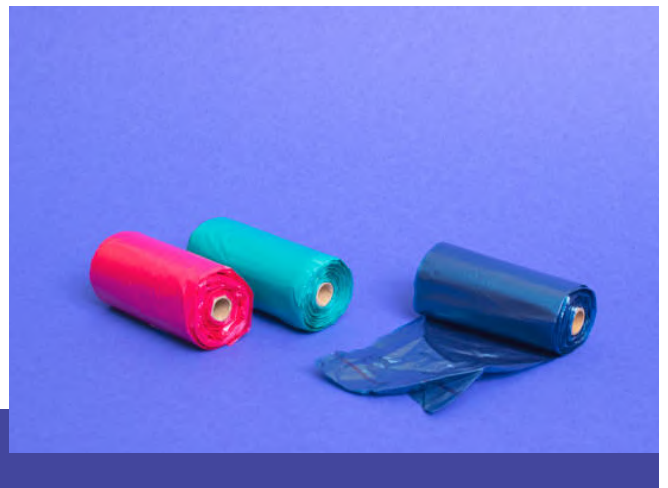

## Our Commitment

It is our to develop, produce, and deliver products and services which consistently conform to customer requirements. We realize and acknowledge that quick turnaround, a quality product and personal service are what matter to you. As such, we are committed to continuous improvement and are constantly working on creating systems that provide a framework for measuring and improving our products and performance.

“We realize that quick turnaround, a quality product, and personal service are what matter”

### PE BAGS FOR FIELD USE

Polythene bags are a critical component to maintaining any farm. Our polyethylene grain storage bags are extremely durable and available in multiple thicknesses, size and colour depending on your requirements. Printed, in keeping with local laws.

# Our Product Range

## PP WOVEN ROLLS

Do you need to dry your cereal? Do you need fabric for item placement? We produce PP woven rolls according to your size and specifications: 35cm, 55cm, 60cm, 70cm, and 75cm. We can also split the fabric to your needs.

“Our products are the product of choice for packaging.”

## PP BAGS FOR ANIMAL FEEDS

Do you manufacture, transport or sell animal feeds? Our PP woven bags provide more durable features compared with other packaging materials. We provide bags with a variety of packing capacities in, both printed and unprinted.

# Our Product Range

## PP BAGS FOR FLOUR STORAGE

Do you mill flour? We provide PP flour woven bags with a variety of packing capacities and to our customers. We strictly use food grade raw materials in our manufacturing process to produce various sizes of flour bags.

“Our products are best for ease of packing and stacking.”

## PP BAGS FOR BAILING

PP Baling bags are used for packaging items in bales. They are particularly strong and durable. Their transparency aids in distinguishing our customers different products. They are gazetted or non-gazetted depending on your needs.

# Our Product Range

## PP BAGS FOR CEREAL STORAGE

Do you need to store your grains? We provide the best storage options with different storage capacities (5kg, 10kg, 20kg, 25kg, 50kg, 90kg, 100kg) to your specifications both unprinted or printed with your personal brand.

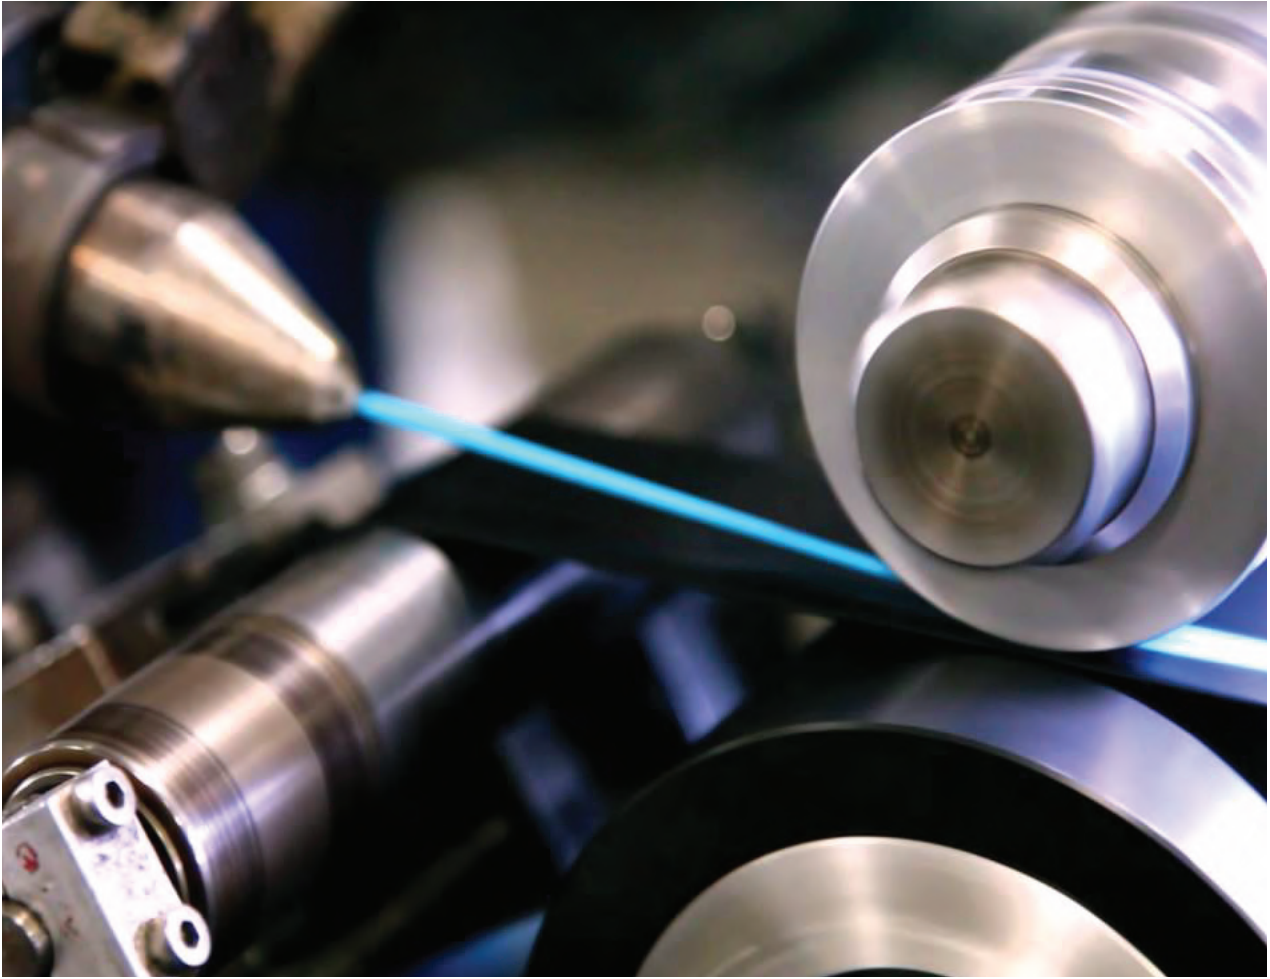

“Our products have the advantage of being lightweight, tear, and acid resistant.”

## PP BAGS FOR PACKING VEGETABLES

PP Baling bags can be used for packaging produce such as potatoes and carrots. They are particularly strong and leave enough room for aeration. The packaging aids in protecting your hard earned produce during transit and transportation.
